

IDEAS CONFERENCE 2022

POWER OF EVALUATION: INFLUENCING DECISION MAKING FOR A BETTER AND MORE EQUAL WORLD

Evaluation for Transformational Change Award Event and Ceremony

September 30, 2022

AGENDA

BACKGROUND Evaluation for Transformational Change Award

The Evaluation for Transformational Change Award is a joint initiative by the Independent Evaluation Group (IEG/WB), the Independent Office of Evaluation of IFAD, and the International Development Evaluation Association (IDEAS). It entails a biennial award competition for evaluations of development interventions that promote or result in transformational change. The award program aims to create an incentive for conducting evaluations that promote or report on transformative change and contribute to the achievement of the SDGs.

The first Award Ceremony was held during the IDEAS Conference and Global Assembly in September/October 2019; and it is planned to be held every two years for ten years. More information on the Evaluation for Transformational Change Award available at <https://ideasglobal.org/award-2022/>.

The second award competition was held in the present year 2022. Its results will be presented in a hybrid event scheduled on September 30, 2022, in the frame of IDEAS Conference 2022: Power of Evaluation: influencing decision-making for a more equal and better world.
